

CLONING A LIST

- create a new list and **copy every element** using
`chill = cool[:]`

```
1 cool = ['blue', 'green', 'grey']  
2 chill = cool[:]  
3 chill.append('black')  
4 print(chill)  
5 print(cool)
```

```
['blue', 'green', 'grey', 'black']  
['blue', 'green', 'grey']
```
